GRANULAR ODOR COUNTERACTANT

Easy-To-Apply Absorbent Odor Control Granules
For Restaurant, Institution and Municipal Waste

Powerfully-effective DEFENDER Odor Counteractant Granules™ contain exclusive Metazene® odor destroying additive. DEFENDER brand granules are formulated to handle even the toughest odors from restaurant, institutional, commercial and municipal waste. DEFENDER offers the perfect solution to odor problems from trash containers, garbage dumpsters and compactors.

Features & Benefits

- Effectively suppresses gaseous malodors associated with decaying carcasses and organic wastes.
- Easy to apply and economical to use.
- Long-lasting, effectively controls odors between waste hauling cycles.
- Out-performs competitive products.
- Available in 5 convenient sizes.
- Biodegradable, non-corrosive, contains no acids – can be used with complete confidence.
- V.O.C. complaint

Suggested uses:

Apply liberally to odor sources in and around: garbage dumpsters, trash compactors, landfill sites, sewage treatment plants, rendering plants, manure piles, urine and emesis, decaying carcasses, food waste, meat, fish and poultry processing areas, etc. Ideal for use aboard cruise liners and sailing vessels

Waste Containers/Dumpsters: Scatter 2-3 scoops per cubic yard of container capacity. Repeat after each service cycle or as needed. Keep lid closed.

Garbage Collection Trucks: Scatter freely onto beds and hoppers of garbage and refuse trucks.

Trash Cans, Container and Compactors: Apply 2-3 tablespoons when empty as needed.
